File: 3^^^Da2.Doc

To : William J. Keese, Chairman  
David A Rohy, Ph.D, Vice Chair  
Michal C. Moore, Commissioner  
Robert A. Laurie, Commissioner

From : California Energy Commission - Kent Smith  
1516 Ninth Street Acting Executive Director  
Sacramento, CA 95814-5512

Subject : **DATA ADEQUACY RECOMMENDATION FOR THE THREE MOUNTAIN POWER PROJECT - (99-AFC-2)**

On March 3, 1999, the Three Mountain Power, Limited Liability Company (the applicant) filed an Application for Certification (AFC) for the Three Mountain Power Project (TMPP). At the business meeting on April 14, 1999, the Energy Commission adopted staff's recommendation that the application should not be accepted due to data inadequacies. On June 4, 1999, the applicant filed supplemental information to address the list of data inadequacies adopted by the Energy Commission on April 14, 1999.

Cal. Code of Regs., tit. 20, § 1709 (d) specifies that "[i]f the applicant files additional data to complete the notice or application for certification, the commission shall determine, within 30 days of receipt of that data, whether the data is sufficient to make the notice or application for certification complete." The June 23, 1999 business meeting is the latest business meeting that the issue of data adequacy of the supplemental filing can be addressed in order for the Energy Commission to meet its 30 day review mandate.<sup>1</sup> The staff has completed its data adequacy review of the supplemental information submitted on June 4, 1999. I have determined that the application now contains all the information required by Cal. Code of Regs., tit. 20, § 1704, Appendix B. Attachment A contains staff's detailed data adequacy worksheets for those technical areas that were previously identified as being data inadequate. Also identified on the worksheets is where in the application the information making the application complete can be found.

## SHASTA COUNTY AIR QUALITY MANAGEMENT DISTRICT COMMENTS

On May 17, 1999 we received a letter from R. Michael Kussow, representing the Shasta County Air Quality Management District (District), which identified that the additional information submitted to the District allowed the District to deem the application complete. A copy of the District's letter is attached.

---

<sup>1</sup> Since the Energy Commission's inadequacy determination on April 14, 1999, the applicant has provided staff with draft supplemental filings of the information it intended to make the application complete. Copies of these draft sections were forwarded to California Unions for Reliable Energy (CURE) and the Shasta County Air Pollution Control District, which were the only interested parties to provide comments on the application's data adequacies.

## **CALIFORNIA UNIONS FOR RELIABLE ENERGY COMMENTS**

### ***AIR QUALITY***

On April 29, 1999, we received data adequacy comments on the draft supplement information from the California Unions for Reliable Energy (CURE). The comments received on April 29, 1999, related to air quality information. We believe that the comments related to project construction emissions have been addressed in the June 4, 1999 supplement and in the correspondences to the Shasta County District.

In its April 29, 1999 letter, CURE is asserting that the applicant should provide sufficient offsets information so that the District can complete the Determination of Compliance (DOC). CURE believes that the information on the status of negotiation for offsets does not offer enough evidence for the District to complete its DOC. Staff agrees that the information identified by CURE would need to be provided in order for the District to complete its DOC. We also agree that this information would be needed by the Energy Commission<sup>2</sup> prior to approving the project. However, our data adequacy regulations<sup>3</sup> do not support the level of information suggested by CURE's comments.

In its June 4, 1999 supplemental filing, the applicant has provided documentation of the availability and the status of negotiation to purchase offsets located Shasta and Sacramento Counties. In addition, we received a letter from the District indicating that the applicant has provided all necessary information, and that the application is complete. Therefore, we believe the information provided in the supplement satisfies the requirements of our regulations.

### ***WATER***

On May 10, 1999, we received data adequacy comments on the draft supplement information from the California Unions for Reliable Energy (CURE). CURE's first comment relates to a concern that certain facilities to be built or expanded by the Burney Water District are being built specifically for the project. In a conference call, Les Toth, representing the applicant, assured staff that these elements have no relationship to the project. While some of the discussions in the original application were unclear, the supplemental information supplied by the applicant on June 5, reiterates this point.

CURE also states that information provided in the applicant and supplements does not adequately characterize the hydrological setting of the project, specifically the description of groundwater resources. CURE's comments go on to enumerate a number of items that it feels are necessary to completely characterize the groundwater resources. These include hydrogeologic cross-sections, groundwater properties such as storativity and transmissivity, drilling logs and a discussion of the shallow aquifer. In addition, CURE found information

---

<sup>2</sup> Warren Alquist Act addresses offset information -- Public Resources Code section 25523 (d)(2) states "[t]he commission may not find that the proposed facility conforms with applicable air quality standards pursuant to paragraph (1) unless the applicable air pollution control district or air quality management district certifies that complete emission offsets for the proposed facility have been identified and will be obtained by the applicant prior to the commission's licensing of the project ..." Staff has interpreted this section to require that offset contracts or option contracts be provided prior to certification of a project.

<sup>3</sup> Cal. Code of Regs., tit. 20, § 1704, Appendix B (g) (8) (J) (i), (ii) and (iii) require "the quantity of offsets needed; potential offset sources, including location, and quantity of emission reductions; and method of emission reduction", respectively.

lacking regarding the description of springs present in the area and a discussion of the connection between Lake Britton and the local groundwater aquifer.

The Lawrence Report, Appendix J of the supplemental filing, does contain some aquifer parameters including vertical and horizontal conductivity. In staff's opinion, the discussion of specific yield from wells and potential migration of total dissolved solids from unlined ponds provides sufficient information to meet the data adequacy requirements. Furthermore, the shallow aquifer referred to in the Lawrence Report and in CURE's comments may be no more than leachate from unlined ponds accumulating above shallow bedrock and not a groundwater aquifer in the conventional sense. Staff is further evaluating this issue. In regards to other factors such as the cross-sections or the relationship between groundwater and Lake Britton, staff's does not believe these are necessary for data adequacy.

The final issue raised by CURE is the lack of a sufficient project description, namely a clear description of the facilities to be used for project wastewater disposal. CURE correctly characterizes the application and the Lawrence Report discussions of this issue as vague and inconsistent. In the conference call, Les Toth, representing the applicant, indicated that new ponds for wastewater disposal would be constructed near the power plant site. The supplemental information provides a brief description of the ponds and anticipated monitoring requirements. Given the information submitted in the application on the existing Burney Water District Ponds and the similarity of the proposed ponds to the existing ones, staff concluded that the draft information on the ponds is data adequate.

## **RECOMMENDATION**

Based on the discussion above, I will be recommending that the Energy Commission accept the AFC as complete, and that the Energy Commission assign a committee to oversee the proceedings.

If you have any questions, please call Richard K. Buell, staff's Project Manager, at (916) 653-1614.

KENT SMITH  
Acting Executive Director

SITING REGULATIONS	INFORMATION	AFC PAGE NUMBER AND SECTION NUMBER	ADEQUATE YES OR NO	INFORMATION REQUIRED TO MAKE AFC CONFORM WITH REGULATIONS
Appendix B (g) (4) (D)	An estimate of the project noise levels, during both construction and operation, at residences, hospitals, libraries, schools, places of worship or other facilities where quiet is an important attribute of the environment, within the area impacted by the proposed project.	Table 6.4-8	Yes	
Appendix B (g) (4) (E)	An estimate of the project noise levels within the project site boundary during both construction and operation and the impact to the workers at the site due to the estimated noise levels.	Table 6.4-10	Yes	
Appendix B (g) (4) (F)	The audible noise from existing switchyards and overhead transmission lines that would be affected by the project and estimates of the future audible noise levels that would result from existing and proposed switchyards and transmission lines. Noise levels shall be calculated at the property boundary for switchyards and at the edge of the rights-of-way for transmission lines.	Pages 6.4-22 and 6.4-25	Yes	
Appendix B (h) (1) (A)	Tables which identify laws, regulations, ordinances, standards, adopted local, regional, state, and federal land use plans, and permits applicable to the proposed project, and a discussion of the applicability of each. The table or matrix shall explicitly reference pages in the application wherein conformance, with each law or standard during both construction and operation of the facility is discussed;	Tables 6.4-11 & 7.1-1	Yes	
Appendix B (h) (1) (B)	Tables which identify each agency with jurisdiction to issue applicable permits and approvals or to enforce identified laws, regulations, standards, and adopted local, regional, state and federal land use plans, and agencies which would have permit approval or enforcement authority, but for the exclusive authority of the commission to certify sites and related facilities.	Page 6.4-33 & Table 7.1-1	Yes

Technical Area: Traffic and Transportation

Project: Three Mountain Power Project

Technical Staff: Eric Knight

Project Manager: Richard Buell

Docket: 99-AFC-2

Technical Senior: Dale Edwards

SITING REGULATIONS	INFORMATION	AFC PAGE NUMBER AND SECTION NUMBER	ADEQUATE YES OR NO	INFORMATION REQUIRED TO MAKE AFC CONFORM WITH REGULATIONS
Appendix B (g) (1)	...provide a discussion of the existing site conditions, the expected direct, indirect and cumulative impacts due to the construction, operation and maintenance of the project, the measures proposed to mitigate adverse environmental impacts of the project, the effectiveness of the proposed measures, and any monitoring plans proposed to verify the effectiveness of the mitigation.	Sections 6.5-1 – 6.5.6; Pages 6.5-1 – 6.5-18 Section 6.19; Pages 6.19-1 – 6.19-2  Page 6.5-1 through 6.5-10	NoYes	<del>Section 6.19, Cumulative Impacts, identifies a 40-acre commercial project proposed at the junction of State Route 299 and State Route 89, but does not present a discussion of any anticipated cumulative impacts when this project is considered together with the Three Mountain Power Project. Please provide a discussion of any anticipated cumulative traffic impacts that may be caused by the two projects when considered together.</del>
Appendix B (g) (5) (A)	A regional transportation setting, on topographic maps (scale of 1:250,000), identifying the project location and major transportation facilities. Include a reference to the transportation element of any applicable local or regional plan.	Figure 6.5-1 Section 6.5.1.1; Pages 6.5-5 – 6.5-7  Page 6.5-1 through 6.5-10	NoYes	<del>The Shasta County General Plan was updated in 1998. Thus, the Circulation Element policies cited in the AFC are outdated. Please provide the current General plan Circulati</del>
Appendix B (g) (5) (B)	An identification, on topographic maps at a scale of 1:24,000 and a description of existing and planned roads, rail lines, including light rail, bike trails, airports, bus routes serving the project vicinity, pipelines, and canals in the project area affected by or serving the proposed facility. For each road identified, include the following information, where applicable:	Figure 6.5-2 Section 6.5.1; Pages 6.5-1 – 6.5-9  Page 6.5-1 through 6.5-10, Figures 6.5-1 and 6.5-2	NoYes	<del>Staff can only find 4 of the 6 airports identified by the applicant on the map provided (Figure 6.5-1). Please clearly identify the location of all airports listed in Section 6.5.1.1. Also, the AFC cites local and regional transportation plans, but does not describe (or identify on a map) any planned transportation facilities in the project area. If there are none, please provide a statement to that effect. The AFC states that vehicles will predominantly travel to the power plant site from the west via Interstate 5 (Page 6.5-1). The AFC also makes assumptions about the distribution of project-related traffic. Table 6.5-3 assumes that 10% of trucks and 20% of autos will originate from east of the site (via State Route 89). The AFC does not provide the information required by Appendix B (g) (5) (B) subsections (i) – (vi) for Interstate 5 or State Route 89. For Interstate 5 through Redding, and for State Route 89 at the junction with SR 299, please provide the following information:</del>
Appendix B (g) (5) (B) (i)	Road classification and design capacity;	Table 6.5-2; Page 6.5-10  Table 6.5-2; Page 6.5-11	NoYes	<del>See explanation in Appendix B (g) (5) (B). In addition, please provide the design capacity for State Route 299.</del>

## DATA ADEQUACY WORKSHEET

Revision No. \_\_\_\_\_ Date 3/26/99  
 Technical Staff: Joe O'Hagan  
 Technical Senior: Jim Brownell

Project: Three Mountain Power Project  
 Docket: 99-AFC-2

SITING REGULATIONS	INFORMATION	AFC PAGE NUMBER AND SECTION NUMBER	ADEQUATE YES OR NO	INFORMATION REQUIRED TO MAKE AFC CONFORM WITH REGULATIONS
Appendix B (g) (1)	...provide a discussion of the existing site conditions, the expected direct, indirect and cumulative impacts due to the construction, operation and maintenance of the project, the measures proposed to mitigate adverse environmental impacts of the project, the effectiveness of the proposed measures, and any monitoring plans proposed to verify the effectiveness of the mitigation.	Pages 2-8, 2-29; 5-19; 6.7-9 to 6.7-10; 6.12-2 to 6.12-7; 6.12-10 to 6.12-11; 6.14-1 to 6.14-19 and Figure 6.14-1. Section 6.14, Appendix J Lawrence & Associates Groundwater Resource Evaluation	<del>No</del> Yes	<del>Provide proposed water supply well(s) location and description. Describe other facilities that Burney Water District must expand to accommodate the project. Describe information on existing groundwater levels and potential groundwater drawdown from pumping to supply the project.</del>
Appendix B (g) (14) (A)	All information required by the Regional Water Quality Control Board in the region where the project will be located to apply for:			
Appendix B (g) (14) (A) (i)	Waste Discharge Requirements; and	Not applicable		
Appendix B (g) (14) (A) (ii)	a National Pollutant Discharge Elimination System Permit.	Not applicable		
Appendix B (g) (14) (B)	A description of the hydrologic setting of the project. The information shall describe, in writing and on maps at a scale of 1:24,000, the chemical and physical characteristics of the following water bodies that may be affected by the proposed project:	Pages 6.14-1 to 6.14-19 and Figure 6.14-1.		
Appendix B (g) (14) (B) (i)	Ground water bodies and related geologic structures;	Pages 6.14-2 to 6.14-5 Appendix J Lawrence & Associates Groundwater Resource Evaluation	<del>No</del> Yes	<del>Provide a description of the groundwater aquifer that will be used for the project.</del>
Appendix B (g) (14) (B) (ii)	Surface water bodies; and	Pages 6.14-1 to 6.14-2	Yes	
Appendix B (g) (14) (B) (iii)	Water inundation zones, such as the 100-year flood plain and tsunami run-up zones.	See Facility Design		
Appendix B (g) (14) (C)	A description of the water to be used and discharged by the project. This information shall include:			
Appendix B (g) (14) (C) (i)	Source of the water and the rationale for its selection, and if fresh water is to be used for power plant cooling purposes, a discussion of all other potential sources and an explanation why these sources were not feasible;	Pages 5-19; 6.14-3 to 6.14-5; 6.14-7 to 6.14-11	Yes

## DATA ADEQUACY WORKSHEET

Project: Three Mountain Power Project  
 Docket: 99-AFC-2

Revision No. \_\_\_\_\_ Date 3/26/99  
 Technical Staff: Joe O'Hagan  
 Technical Senior: Jim Brownell

SITING REGULATIONS	INFORMATION	AFC PAGE NUMBER AND SECTION NUMBER	ADEQUATE YES OR NO	INFORMATION REQUIRED TO MAKE AFC CONFORM WITH REGULATIONS
Appendix B (g) (14) (C) (ii)	The physical and chemical characteristics of the source and discharge water;	Table 2.1-6, 2.1-8, 6.12-3, 6.14-3; Appendix J Lawrence & Associates Groundwater Resource Evaluation	<del>No</del> Yes	<del>Water quality analysis is from unspecified well within the project area. Need to identify the location of this well and why it is representative of the proposed water source. If this information is not from the immediate vicinity and aquifer depth of where the proposed well or wells for the project are, then information from wells more representative of the proposed water source need to be provided.</del>
Appendix B (g) (14) (C) (iii)	Average and maximum daily and annual water demand and waste water discharge for both the construction and operation phases of the project; and	Figures 2.1-9, 6.14-2; Tables 2.1-3 to 2.1-5, 6.14-4	Yes	
Appendix B (g) (14) (C) (iv)	A description of all facilities to be used in water conveyance, treatment, and discharge. Include a water mass balance diagram.	Pages 2-8, 2-29, 6.14-8 and 6.15-4 Section 6.14, Appendix J Lawrence & Associates Groundwater Resource Evaluation	<del>No</del> Yes	<del>Page 2-8 indicates that the Burney Water District will be drilling a new well or new wells for the project. Page 6.7-10 indicates that the district will expand their facilities to provide water to the proposed project. There needs to be a discussion of what the existing facilities are, including capacity and what are the planned facilities. The location of the well or wells needs to be identified on a map at a scale of 1:24,000. A description of the anticipated well depths, screening interval, capacity and construction methods need to be provided. Additional information on the facilities to be use by the Burney Water District for wastewater disposal.</del>
Appendix B (g) (14) (D)	A description of pre-, and post-construction runoff and drainage patterns, including:	See Facility Design		
Appendix B (g) (14) (D) (i)	Precipitation and storm runoff patterns; and	See Facility Design		
Appendix B (g) (14) (D) (ii)	Drainage facilities and design criteria.	See Facility Design		
Appendix B (g) (14) (E)	An assessment of the effects of the proposed project on water resources. This discussion shall include:			
Appendix B (g) (14) (E) (i)	The effects of project demand on the water supply and other users of this source;	Pages 2-8, 6.7-9 to 6.7-10; 6.14-4 to 6.14-5	Yes

Project: Three Mountain Power Project  
 Docket: 99-AFC-2

Revision No. \_\_\_\_\_ Date 3/26/99  
 Technical Staff: Joe O'Hagan  
 Technical Senior: Jim Brownell

SITING REGULATIONS	INFORMATION	AFC PAGE NUMBER AND SECTION NUMBER	ADEQUATE YES OR NO	INFORMATION REQUIRED TO MAKE AFC CONFORM WITH REGULATIONS
Appendix B (g) (14) (E) (ii)	The effects of construction activities and plant operation on water quality; and	Pages 6.12-2 to 6.12-7; 6.12-12;	Yes	
Appendix B (g) (14) (iii)	The effects of the project on the 100-year flood plain or other water inundation zones.	See Facility Design		
Appendix B (h) (1) (A)	Tables which identify laws, regulations, ordinances, standards, adopted local, regional, state, and federal land use plans, and permits applicable to the proposed project, and a discussion of the applicability of each. The table or matrix shall explicitly reference pages in the application wherein conformance, with each law or standard during both construction and operation of the facility is discussed;	Tables 6.14-7 and 7.1-1	Yes	
Appendix B (h) (1) (B)	Tables which identify each agency with jurisdiction to issue applicable permits and approvals or to enforce identified laws, regulations, standards, and adopted local, regional, state and federal land use plans, and agencies which would have permit approval or enforcement authority, but for the exclusive authority of the commission to certify sites and related facilities.	Table 6.14-6, page 6.14-19	Yes	
Appendix B (h) (2)	A discussion of the conformity of the project with the requirements listed in subsection (h)(1)(A).	Table 7.1-1	Yes	
Appendix B (h) (3)	The name, title, phone number, and address, if known, of an official within each agency who will serve as a contact person for the agency.	Page 6.14-19	Yes	
Appendix B (h) (4)	A schedule indicating when permits outside the authority of the commission will be obtained and the steps the applicant has taken or plans to take to obtain such permits.	Table 6.14-6	Yes

Revision No. 1 Date 5/3/99  
 Technical Staff: Ellie Townsend-Smith  
 Technical Senior: Chris Tooker

Project: Three Mountain Power LLC  
 Docket: 99-AFC-2

SITING REGULATIONS	INFORMATION	AFC PAGE NUMBER AND SECTION NUMBER	ADEQUATE YES OR NO	INFORMATION REQUIRED TO MAKE AFC CONFORM WITH REGULATIONS
Appendix B (g) (1)	...provide a discussion of the existing site conditions, the expected direct, indirect and cumulative impacts due to the construction, operation and maintenance of the project, the measures proposed to mitigate adverse environmental impacts of the project, the effectiveness of the proposed measures, and any monitoring plans proposed to verify the effectiveness of the mitigation.	Section 1.1.1.1 pg. 1-3 Section 6.11.2 pg. 6.11-18	Yes	
Appendix B (g) (11) (A)	A description of the safety training programs which will be required for construction and operation personnel.	pp. 6.11.1.2.4, 6.11.1.3.4 pg. 6.11-7 pg. 6.11-13	Yes	
Appendix B (g) (11) (B)	A complete description of the fuel handling system and the fire suppression system.	pg. 6.11-14, Section 6.11.1.3.5 pg. 6.11-16, Section 6.11.1.3.6 pg. 6.11-7, Section 6.11.1.2.5	Yes	
Appendix B (g) (11) (C)	Provide draft outlines of the Construction Health and Safety Program and the Operation Health and Safety Program, as follows:			
	Construction Health and Safety Program: * Injury and Illness Prevention Plan (8 Cal. Code Regs., § 1509);	6.11.1.3.1, pg. 6.11-10	Yes	
	* Fire Protection and Prevention Plan (8 Cal. Code Regs., § 1920);	Page 6.11-7, 6.11-8, 6.11-11, 6.11-12, 6.11-15 through 6.11-18, & Attach 5	Yes <del>No</del>	<del>Please provide an outline of the construction Fire Protection and Prevention Plan;</del>
	* Personal Protective Equipment Program (8 Cal. Code Regs., §§ 1514-1522)	6.11.1.3.3, pg. 6.11-12	Yes	
	Operation Health and Safety Program: * Injury and Illness Prevention Program (8 Cal. Code Regs., § 3203);	Page 6.11-7, 6.11-8, 6.11-11, 6.11-12, 6.11-15 through 6.11-18, & Attach 5	Yes <del>No</del>	<del>Please provide an outline of the operation IIPP.</del>
	* Fire Prevention Plan (8 Cal. Code Regs., § 3221);	Page 6.11-7, 6.11-8, 6.11-11, 6.11-12, 6.11-15 through 6.11-18, & Attach 5	Yes <del>No</del>	<del>Please provide an outline of the operation Fire Prevention Plan (Refer to Elk Hills AFC Section 5.14.1.2)</del>
	* Emergency Action Plan (8 Cal. Code Regs., § 3220);	6.11.1.4, pg. 6.11-18, Attachment 4	Yes	
	* Personal Protective Equipment Program (8 Cal. Code Regs., §§ 3401-3411).	6.11.1.3.3, pg. 6.11-12	Yes
